

Application for a Stand Construction Authorisation

Dear Sir/Madam,

Please complete this form and return it to us signed and stamped. Once we have received your plans, we will be happy to review your concept with a view to issuing a Stand Construction Authorisation.

The positions and prices specified are intended as guidance regarding whether, and to what degree, elements of your stand construction require structural or fire safety inspections and measures.

If you have any questions, please do not hesitate to contact us.

Messe Frankfurt Venue GmbH
V31, Technical Project Management Fairs
Ludwig-Erhard-Anlage 1
60327 Frankfurt am Main, Germany
Phone + 49 69 75 75-0

Stand construction registration

The following stand constructions **do not require authorisation**:

For single-storey stands

- that are not considered to be special constructions
- whose stand area is less than 100 m²
- whose height does not exceed 4.00 m

it is **not necessary to submit** planning documents.

The following stand constructions **require authorisation**:

Exhibition stands located in outdoor areas, temporary structures, mobile stands, two-storey stands, special structures and special constructions **require approval and are subject to additional cost**.

Special constructions include:

- Stand structures and exhibits that are more than 4 metres in height
- Closed ceilings
- Platforms and stages higher than 0.20 m
- Glass constructions
- Moving components

Please refer to the excerpt from the Technical Guidelines below.

The following costs may be entailed by stand structures requiring approval in 2024:

Onsite structural safety inspection / Structural inspection

– On-site structural inspection for two-storey structures; per inspection	€1,416.00
– Structural inspection for walls/constructions higher than 4.00 m or LED walls; per inspection	€405.00
– Structural inspection for floor/ceiling connections or advertising materials / product presentations > 4.00 m; per inspection	€405.00
– Structural inspection for accessible glass constructions and platforms / rotating platforms higher than 20 cm or rotating stages in exhibition halls or outdoor areas, per inspection	€405.00
– Structural inspection for structurally complex constructions and movable product presentations, e.g. walls/constructions/modules; per inspection	€774.00
– Structural inspection for stands in outdoor areas, 1 - 100 m ² without an upper storey, per inspection	€405.00
– Structural inspection for stands in outdoor areas, 101 - 1,000 m ² without an upper storey, per inspection	€774.00
– Structural inspection for stands in outdoor areas, 1 - 1,000 m ² with an upper storey, per inspection	€1,416.00
– Structural inspection for tents in outdoor areas, 1 - 100 m ² , per inspection	€405.00
– Structural inspection for tents in outdoor areas, 101 - 1,000 m ² , per inspection	€774.00
– Structural inspection for movable product presentations / walls / modules and structurally complex constructions, per inspection	€405.00
– Onsite structural safety inspection regarding tilting, sliding and uplifting for filigree structures in outdoor areas, (e.g. folding displays, small tents, party tents or light tents) including 32 m ² and max. 4 m height (no static check of the components and connections); per inspection	€140.00

Fire protection

– Fire alarm system, 1 – 800 m ² enclosed area, per m ²	€51.00
– Wall hydrant, Type “S” (for self-help), per hydrant	€799.00
– Flue gas fan, per fan	€945.00
– Visual and acoustic warning system, per system	€298.00
– Sprinkler, per sprinkler	€755.00
– Push-button alarm, per alarm	€400.00

Excerpt from the Technical Guidelines

Inspection and approval of structures requiring a permit

Dimensioned stand plans drawn to a suitable scale (e.g. 1:100) and accompanied by floor plans and perspective views in electronic form (PDF) with German or English labelling shall be submitted for approval by no later than six weeks before the start of set-up to: Messe Frankfurt Venue GmbH, Department Technical Project Management Fairs
Email: standapproval@messefrankfurt.com

After the stand plans have been inspected, they will be stamped as having been approved and then returned to the exhibitor / stand constructor.
Stand construction may not commence until the plans have been stamped as having been approved.

For the approval of:

- Special constructions
- Two-storey structures
- Stands in outdoor areas
- Temporary structures
- Cinemas and auditoriums
- Stages and platforms

the following documentation (in duplicate) must be submitted in German by no later than six weeks before the start of set-up:

- a) Structural calculations complying with German building standards which are checkable or have been checked by a second independent structural engineer
- b) Building description specifying the materials used (including certificates where applicable)
- c) Stand construction drawings to a suitable scale, e.g. 1:100 (floor plans, perspective views, sectioned views) as well as a ceiling plan with dimensions of the closed ceiling area(s).
- d) A plan detailing the rescue routes that includes the lengths and widths of each.
- e) Submission of a type certification / certification book renders item a) superfluous.

The absence of structural calculations examined by a second, independent structural engineer will result in additional costs for the exhibitor / stand constructor.

In the event that structural computations examined by a second, independent structural engineer are not submitted, Messe Frankfurt will commission a firm of engineering consultants to check the plans and separately invoice the exhibitor for their services.

On-site structural inspection:

The structural engineer will contact the stand construction manager at a specified time / after consultation in order to inspect the structural characteristics and approve the stand construction on site.

The costs of the approval process (inspection of the submitted documents and on-site approval) will be invoiced to the exhibitor / stand constructor.

We have taken note of and observed Messe Frankfurt's Technical Guidelines.
